Everyone here at People for the Ethical Treatment of Animals, sends our condolences. Animals need all the friends they can get in this often uncaring world, and Helen was one of them we are sad to lose. Kind regards, Ingrid Newkirk, PETA

(FROM BRIAN) All the time I knew my mother in law Helene we always had great conversations especially when she started liking (oh God I cant even say it The Patriots lol). She always commented on my bowling on our kids accomplishments on any of my families accomplishments or birthdays or pictures ect... She was kind and loving and had an amazing life and so talented in arts and crafts. The last great memory that I have of my mom was talking with her on the phone just sharing some stories and chit chatting over stuff. Then we were talking about sports and the patriots and the bills and the sabres. And I remember telling her that I would send her a Sabres Shirt 2XL she wanted because they were going to finally turn the corner and become good this year. It was a joke that I needed to get her into hockey now and for it to be the sabres not the bruins or leafs or someone else we hate lol. So Helene you will be incredibly missed you were incredibly loved and I will truly miss talking about sports no matter what it was about with you. It was something we could share together. And i will always cherish that memory together. I love you and will miss you everyday!!! Love your son in law Brian!!!
