“ My deepest condolences to Bridget's family. We were pals back in the early 90's on the police department. In an environment predominantly male, we really bonded and clicked with each other which made going to work that much better. She had a great sense of humor and was a good friend. We were on the same shift at the time and carpooled to work together. She called me "kiddo" even though I was only 3 years younger than her! She watched my pets when I would go away for vacation, she took me home after my wisdom teeth were removed and we attended many after work parties. She could always make me laugh. She was part of a small group that we had that consisted of Jan birthday girls and we would go out for our birthdays every Jan. After she left the police dept, we drifted apart however. I know she had some struggles along the way and I wish it could have been different. I am glad I knew her, like I said, she could always make me laugh. I pray she is at peace now.

“ I was saddened to learn that Bridget had passed away. We worked together as PCA's @ West Springfield back in the 1990's. She was a friend, and we celebrated our January birthdays together with some other co-workers. We lost touch over the years, and I had heard that Bridget was dealing with some personal struggles. I hope that she is finally at peace, and I will keep her in my thoughts and prayers.....Cathy McGuire

“ I too had the opportunity to work with Bridget during my various tour of duties at the West Springfield District Station. Bridget was a valued member of our Team ... She was always willing to help the members of not only her "Squad" but the other Squads at West Springfield District Station (Fairfax County Police Department) ... She had a heart of service; a smile that blessed all that who made contact with her; and was always willing to help those in need. I am blessed to have worked with Bridget; she made a difference; just as Cathy McGuire did and so many others that served the citizens of Fairfax County. God Bless the Family of Friends of Bridget McNeil ... May God's Grace, Peace and Comfort be upon you; Bridget lives on in our hearts and memories. I am sadden of her untimely death. Blessings to All: Retired Captain - Purvis L. Dawson, Jr. - Fairfax County Police Department - 1981 thru 2012.
