“ At last, Maxine can join Richard and hit the road in heaven travelling in their beloved Airstream with their pussy cats. Maxine and I worked side by side at Leu's for 15 years. We laughed together, cried together, cussed together and loved each other very much. She was 16 years older than me and kind of took me under her wing. Without her own children, she liked to pass all her knowledge of nature, medicine, business and home spun humor on to me. I was a good pupil. After I left Leu's and moved to Jacksonville, I continued to visit...even going to Maggie Valley a couple of times. They so loved it up there. Maxine was unique. Everyone loved her. Sometimes her saltiness shocked some, but they came to understand and appreciate her wonderful humor. I have a file of favorite letters I have saved. One of my favorites was her going bra shopping at K-Mart. Erma Bombeck, move over!!! There will never be another like Maxine...God is in for a real treat.
